HOW TO MAKE YOUR FORTUNE TELLER...

- 1) Rip this page out of your journal and carefully cut out your fortune teller
- 2) With the back side up, fold from corner to corner, making a triangle
- 3) Open the paper (back side up still) and fold from corner to corner in the opposite direction
- 4) Unfold the paper - you should have a big X creased into it
- 5) Fold one corner to the middle of the X
- 6) Repeat with the other 3 corners
- 7) Fold and unfold the square horizontally, then do the same vertically
- 8) Turn it over and slide your fingers under the flaps and push the outer corners to the middle
- 9) You're ready to play!
